

## NEWS: HC1 HIGH CHAIR

Design: Anne Quist

In collaboration with the architect and designer Anne Qvist, Andersen Furniture has created a new and extraordinary bar stool. The stool has a wonderful lightness and a soft visual style. It is elegant and very tastefully done and can be used in many contexts.

The stool comes in several variants and styles. The beautiful wooden base is made of oak with different surface treatments and is also available in black lacquer.

There is a choice between a padded leather or a wooden seat. The chair is available in two heights and also has the unique feature that it can be hung on a high table. Practical and elegant – it's simple.
