

U2 – PEBBLE

Design : Spark by Thomas Pedersen

ANDERSEN

FURNITURE SINCE 1916

PURE ORGANIC

Pebble is a little range of charming stools that combines organic aesthetics and a light look. Pebble was designed by architect Thomas Pedersen, and he found inspiration in pebbles - stones that are washed ashore and found on the beach. The stones are slowly transformed over time, and the result is a smooth and beautiful soft stone.

His aim with Pebble was to achieve the same beautiful appearance as the stones.

Pebble is available in two sizes and five different colours in the fabric Crisp. All have visible stitching, for an attractive effect. It can be used in many different places. The only limit when deciding where to use your Pebble stool or pouffe is your own imagination.

POUFFE 96 x 75 cm x H40
STOOL 45 x 45 x H45 cm
