

HT1

Design : byKATO

ANDERSEN
FURNITURE SINCE 1916

PURE PLENUM

With the HT1, byKATO has taken the prize-winning T1 design to new heights - quite literally. The table is a re-interpretation of the traditional high table with trestles. Simple yet full of character, its 30 mm table top seems to float above the two solid wood trestles. The stainless steel cap covering the footrest discretely emphasises the classy tone this table lends to any environment; whether it is used for meetings on the run, for taking a breather, or as a natural hangout in the family room.

150 x 75 cm
216 x 75 cm
273 x 75 cm

HT1 is available in height 93 and 108 cm
